

Visa Travelers Cheques Acceptance Guidelines

For your protection, please follow these 5 simple steps when accepting Visa Travelers Cheques.

Step 1 Check the Visa Travelers Cheque(s) for the following security features:

Paper – feels like currency (*a counterfeit cheque does not feel right—it feels smoother or thicker*)

Watermark – this should be visible on the front side of the cheque when the cheque is lifted to the light (*a counterfeit cheque will not have a watermark on the front side or the watermark will appear on the back side of the cheque*)

Raised texture – (*a counterfeit cheque does not have this feature*)

Holographic thread – the current design contains a silver, metallic, shiny strip with the word ‘secure’ repeated (*a counterfeit cheque has a dull strip*)

Step 2 Ensure that the presenter countersigns the cheque in the lower left corner in front of you.

Step 3 Ensure that the signature and counter-signature match.

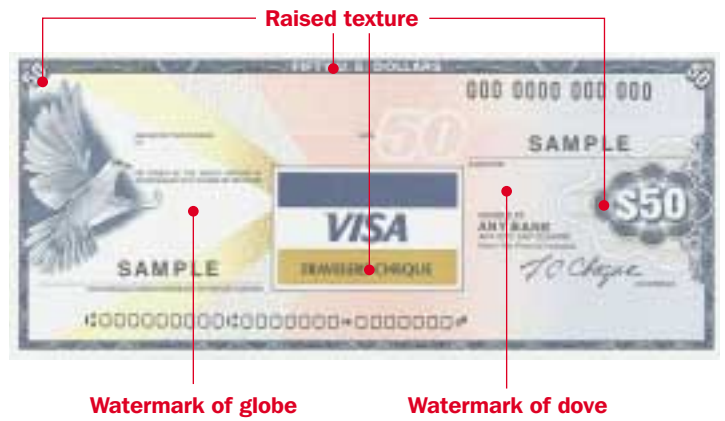

Step 4 If the cheque is already countersigned, ask the presenter to sign it again on the reverse side and ask for identification.

Step 5 Ensure the amount presented is consistent with your normal business transactions.

If you have any questions about the above procedures, please call Visa, 24 hours a day, 365 days a year, at the following toll-free number:
